
Voting NO

Posted by John - 2008/08/08 17:14

After going to the last two meetings, and attempting to discuss OPTIONS, I was told last night that Marc is not going to spend any more time on creating "options". We either vote YES, or next year they'll just raise the fees again and try again...

That's not an attitude I like. :angry:

So, I'm voting no.

If you want to ensure that your NO vote is properly counted, please feel free to have me submit them all together.

Just bring it to 5156 shotwell.

I'll log the vote and turn them all in together on the 15th.

John,

I did not see this message until tonight and I turned my vote in this morning.

For your records, please log me as voting NO to everything except for Bathroom renovations and playground equipment.

Tom Kellen

Will do - and this forum / database will serve as a reference too.

Tom - thanks for joining the discussions.
